# W R 1 FUNCTIONAL G R O U P S

# Buying & Selling.

From acquisition to contract WR1 has extensive mobile and web enabled commercial functionality that allows for the flexibility yet total control of buying, selling and trading both services and materials.

BUYING & SELLING

80

- **02** Efficient and effective management customer & supplier acquisition.
- **03** Seamless operational processes right through to finance & billing.

# Service Planning.

Taking the contract through to order, WR1 enables easy service planning to manage the numerous combinations of trade and domestic activities, ensuring everything is automatically updated and processed.

SERVICE PLANNING

TREND

02 Always know what services are available, across all locations, at any time.

**03** Planning services and collections becomes easier and accurate.

# Transport & Logistics.

Drive the order to fulfillment, with effortless transport scheduling with intelligent logic to deliver straightforward collection execution and automated data capture.

TRANSPORT & LOGISTICS

- **01** Efficiencies in planning, scheduling, route optimisation & driver management.
- **02** See what needs to be done & when and make changes instantly, even from the road.

CURRENT LOCATION

**03** Third party vehicles can be managed in the exact same way.

# Site & Recycling.

Progress from fulfillment to stock with full control and accurate reporting, you'll see profits rise as plant and recycling operations become smoother and more efficient.

11

- **01** Integrated Weighbridge, materials management, plant control & reporting.
- **02** Alignment with stock & billing drives greater profitability as operations gain efficiency.
- **03** Ensuring more of your material is quickly and accurately brought & sold.

# Financial Governance.

Seamless processes from order to cash as WR1 delivers one version of the truth, instant control and complete visibility across your entire waste management and recycling operations.

...

FINANCIAL CONTROL & GOVERNANCE

- **01** Achieve clarity and profitability as WR1 reports 'One Version of the Truth'.
- **02** Instant control & visibility across your entire waste & recycling operations.
- **03** Plan, track, capture, analyse, & accurately report on all aspects of the business.

50

•••

45

# Data & Analytics.

Control everything from operations to finance with integrated data & analytics. With WR1, you can trust that you have the right data at the right time to optimise your operations.

DATA &

ANALYTICS

- **01** Data unlocks automation, resource efficiency, compliance, & profitability.
- **02** Experience an integrated 360 view of operations and finance.
- **03** Full visibility to make informed decisions based on real-time insights.

# W R 1 TECHNOLOGY STACK

# Technology Stack.

WR1 is deployed on a world leading technology stack, built on OutSystems low code Platform, fully integrated to SAP.

- Integrated business process in a single solution, using the same data for accuracy, compliance and reporting.
- Automated tasks, activities, processes and master data control over integrated native mobile and web apps.
- Instant control and complete visibility across your entire waste management and recycling operations.

### Technology

- **01** OutSystems' low-code platform powers the ability to create new and innovative applications, fast, agile and ready for change.
- **02** With OutSystems, WR1 unlocks Internet of Things (IoT) connectivity, functionality and benefits.

# A Complete Solution.

WR1 has been engineered in cooperation with the waste and recycling industry since 2005.

- **01** Modules govern and control data and key processes for all waste transport and materials recycling operations
- **02** Providing specificfunctionality for transportand materials operations.

<u>Home</u>

### Technology

**03** Operational business processes and workflows have been carefully designed to meet the industries requirements.

**04** WR1 is native cloud, developed to be deployed on mobile and web.

# WR1 CORE BENEFITS

# WR1 Core Benefits.

Waste & Recycling One is built to encompass all industry functions, to ensure complete coverage.

### **True Integration**

An end to interfacing. Many waste management and recycling companies use multiple applications with multiple data sources that don't talk to each other. This brings challenges such as problems and delays in managing and understanding what's really going on across your business. Waste and recycling one solves this problem by providing essential and comprehensive integration.

### **Compliant Reporting**

WR1 ensures your waste and recycling management processes are legal, compliant and easy to report on. Waste and recycling companies need to report on so many different areas to internal and governmental bodies. We've designed waste and recycling one so that you can quickly generate the reports needed, maintaining accuracy to ensure confidence and provide clear compliance reporting.

### Accurate Data

WR1 has been designed to handle the complexity of the sector, providing business intelligence you trust. Whole business reporting and reliable Business Intelligence (BI) empowers your organization with accurate, real-time data to help inform their decisions and aid operational and business planning. Using world-leading SAP technology and the advanced analytical tools, you can now have BI that you completely trust.

### **Operational Efficiency**

The integrated nature of WR1 delivers huge increases in business and operational efficiency, As a measure of how profitable your company is, your Operational Efficiency is crucial to strong business performance. With our extensive experience in waste management and recycling, our software solution has been designed to drive improvements across the organisation, leading to better Operational Efficiency.

# True Integration.

WR1 provides an integrated system and a fully connected organization, leading to greater operational and business efficiencies.
